

FOR PRIVATE CHARTER YACHTS
ONLINE, ONBOARD
ON DEMAND

Turn your Private Charter Yacht into a WiFi hotspot.

Allow up to 12 WiFi devices to connect on your private yacht WiFi simultaneously. Whether they are telling their friends about their vacation on Facebook or Skyping friends while they catch some rays on deck, they will be able to send or receive email and surf the web from where ever your BVI adventure takes them.

DON'T ROAM,
LINK.

www.alglink.com

WHY LINK?

Your yacht is your business. Affordable access to our Network On Demand is available 24/7. Our network provides affordable access to up to 12 guests and crew at a time. The cost of satellite internet equipment, maintenance and installation is expensive and inconvenient. We utilise a leading local networks connection and redistribute the data among our subscribers.

SAVE YOUR GUESTS THE STRESS OF DUNKING THEIR DEVICE ON THE WAY BACK FROM THE BEACH BAR. YOUR PRIVATE YACHT IS THEIR HOTSPOT.

STILL NOT CONVINCED?

Here are some additional benefits our *Network On Demand* can deliver to your business:

- Send and receive email, Surf the Internet, YouTube, Skype, Facetime, Google Talk, Send Photos to friends and family, check current weather and local events all from the comfort of your yacht!
- 4G speeds are typical in the BVI.
- Easy to connect, get started and always on.
- Simple installation. Pay one fee and get equipment installation and programming plus one month data free to get started.
- Service and support available locally 7 days a week!

ALL THIS AND MORE AT YOURS AND YOUR GUESTS FINGERTIPS ONBOARD YOUR PRIVATE CHARTER YACHT.
